

Brian McCormack

Brian McCormack has built an extensive track record of successfully navigating and managing government processes over his 25 years of working at the federal, state, and local levels across a range of issue areas.

Brian is known for creating outcomes while working at the White House, Department of Defense, Department of Energy, and in the electric utility industry. Brian most recently served in the White House Office of Management and Budget, leveraging his years of experience to manage all facets of executive branch operations, policy, and budget across 12 cabinet-level departments and agencies.

As the Acting Executive Associate Director and Program Associate Director, Brian managed OMB operations and \$2 trillion in taxpayer funding. His portfolio covered everything from mining critical minerals to NASA's efforts to return to the Moon and on to Mars. In between those two bookends, Brian was also responsible for building a cross-sector budget to support America's competitiveness in the areas of Artificial Intelligence, advanced manufacturing, biotechnology, advanced communications networks, and quantum science.
