

Jim Howe

Jim Howe has extensive experience in communications, advocacy, policymaking, and business development. He has spent the last 12 years working in the nuclear industry, where he was deeply involved in the deployment of state-of-the-art uranium enrichment technology. Jim has supported a number of advanced reactor developers as they bring their technologies to market, and has worked closely with numerous partners in Congress, the executive branch, trade associations, and industry, in the U.S. and internationally.

Prior to his private sector experiences, Jim served as a commissioned officer in the U.S. Coast Guard, with 11 years at sea and five in command of Coast Guard cutters. He retired at the rank of Captain (O-6). Jim also served at the Department of Homeland Security and as a policy advisor to the Vice President of the United States. He holds masters degrees in space studies, government, and strategic studies, is an accomplished author, and is completing postgraduate research on the development of U.S. space and nuclear policies.
