

Lucian Niemeyer

Lucian's national security expertise spans five decades as an Air Force and the Air National Guard Officer, Professional Staff Member on the Senate Armed Service Committee, and in the Pentagon and White House as an Assistant Secretary of Defense concentrating on national facility and energy development for the largest real estate portfolio in the world. Throughout his professional career in Washington DC, He has been a strong advocate for the use of advanced nuclear power to enhance energy resiliency and balance energy generation sources.

Lucian also serves as the Chief Executive Officer and Chairman of the Board of Building Cyber Security, a non-profit organization established in 2020 to enhance global safety by developing frameworks with stakeholders across multiple sectors to promote cyber protections in operational technologies, controls, and devices for enhanced human security and safety in an increasingly smart world. In this role, he applies his expertise and experience in the convergence of facilities, real estate, and technology to counter emerging global threats.
