

Jim Howe

Jim Howe has worked in the advanced nuclear industry for 15 years, where he has been deeply involved in the deployment of state-of-the-art uranium enrichment technology and several advanced reactor designs. He has extensive experience in communications, advocacy, policymaking, and business development. Jim has worked closely with numerous partners in Congress, the executive branch, trade associations, and industry, in the U.S. and internationally.

Prior to his private sector experiences, Jim served as a commissioned officer in the U.S. Coast Guard, with 11 years at sea and five years in command of Coast Guard cutters. He retired at the rank of Captain (O-6). Jim also served at the Department of Homeland Security and as a policy advisor to the Vice President of the United States. He holds a PhD from the University of Leicester, masters degrees in space studies, government, and strategic studies, and is an accomplished author.
